

**2007 Chartwell Solid Waste Digest**  
**Year 17 - Digest 10**  
**Summary of Report Contents**  
**Released 12/17/2007**

**Solid Waste Digest Featured Report: National State-By-State Survey Findings**

***COMPREHENSIVE LOOK AT THE DISPOSAL PICTURE OF THE UNITED STATES*** - This report documents the findings from Chartwell's yearlong survey of state solid waste programs and facilities, and includes breakdowns by demographic trends, recycling rates, per-capita disposal rates and total tonnage disposed. 6 pages.

**Municipal Solid Waste Gate Rates – Pacific Northwest (Chartwell Region #10)**

***LONG-TERM REGIONAL & STATE GATE RATES & TRENDS*** - This report represents a summary of recent research findings from gate rates at waste facilities accepting municipal solid waste in Chartwell's Region #10. This region, the Pacific Northwest, consists of the states of Alaska, Idaho, Oregon, and Washington. The report provides the recent low, average, median, high gate rates amongst all surveyed landfills and transfer stations in the region and each state. This recent survey results are compared to same statistics for the same facilities at the turn of the century (2000) to provide a summary of pricing trends for small, medium, and large landfills. 9 pages.

**Construction & Demolition Gates Rates – Northeast (Chartwell Region #1)**

***LONG-TERM REGIONAL & STATE GATE RATES & TRENDS*** - This report represents a summary of recent research findings from gate rate at waste facilities accepting construction & demolition in Chartwell's Region #1. This region, the Northeast, consists of the states of Connecticut, Delaware, Massachusetts, Maine, New Hampshire, Rhode Island, and Vermont. The report provides the recent low, average, median, high gate rates amongst all surveyed landfills and transfer stations in the region and each state. These recent survey results are compared to same statistics for the same facilities at the turn of the century (2000) to provide a summary of pricing trends for small, medium, and large landfills. 9 pages.

**State Solid Waste Market Digests: Texas, New Hampshire, Arizona, Idaho, South Dakota**

***KEY FACTS ON STATE MARKETS*** -These individual reports focus on state-level waste management facts and figures. Included are demographic breakdowns of the state as it relates to waste disposal, such as major cities' waste streams, as well as the regulatory framework governing disposal within the state. Also included are specific totals of landfills, waste-to-energy facilities, transfer stations, recycling centers, and other

disposal facilities, as well as Chartwell's in-depth analysis of low, high, and median gate rates for each state as compared to its overall region. Each state report is about 5 pages.

### **Comparison of the Financial Performance of Publicly Traded Special Waste Services and MSW Firms**

***FOUR-QUARTER PERFORMANCE COMPARISONS*** - Chartwell tracks all major publicly traded MSW and special waste services companies for the purposes of charting trends and documenting performance by a variety of key financial statistics. Analyses and figures illustrate the revenue, operating income, and net income over recent quarters as well as the change in revenues, operating margin and net profit margin. This section documents comparative statistics for both MSW and special waste companies, demonstrating the most successful companies of the past four quarters. 7 pages.

### **2007 Gate Rate Survey – Summary of Recent Survey Group Findings (Survey Groups #1-9)**

***NEWEST PRICING TRENDS*** - This report summarizes the results of our total 2007 survey effort on gate rates for municipal solid waste and construction and demolition wastes. The report totals nearly 3,000 waste facilities across the entire United States. This report provides the low, average, median, and high gates rates determined in the 2007 survey. This report also provides an update as to how 2007 facility gate rates compared to those found at the same facilities in 2006. 6 pages.
